

Praying for Our World

Dear God:

I come before you today filled with fear, concern, doubts and sadness. I fear that heavy rains may lead to another devastating flood. I have concern for people suffering through a terrible plague with all of its implications for safety, security, and loss of life. The severity of these events and their consequences is testing my faith and my own weakness in the face of that test fills me with sadness and a sense of fathomless loss.

The crux of the problem is the merging of many negative forces on our lives at this time in history.

My faith, while still strong, has taken a direct hit in the face of these calamities. Your people need relief from this pandemic world-wide and (more locally) from the incessant rain, too. I implore you to give us all respite from these problems and show that your everlasting love for your people is still strong. Deliver us from this disastrous disease and dry up the heavens to provide succor to your faithful. So many of us have suffered incalculable pain and loss. Restore our faith and keep us strong in your love.

We ask in Jesus holy name,
Amen

Why Basic Income (BI)? We have many support programs in Canada that are not working to lift people out of poverty but rather creating generational poverty. Our welfare system which was designed to ensure Canadians could pay rent and buy food, does not allow them to improve their lives but instead, penalizes them. Their welfare cheques are clawed back dollar for dollar if they earn additional money to support themselves. When they start to work they lose any financial support they had such as subsidized housing and child care. The current system does not encourage people to want to do better for themselves, which is what BI would do. BI is designed to catch people as soon as their income drops, helping them over the hurdle of finding new work, supporting them while they retrain or allowing them time to start their own business and return to being self supporting. It has been proven, by the many trial projects, (two in Canada) to bring people back into the workforce and into better jobs. It takes away the stress of poverty and income uncertainty, creating healthier families and reducing mental and physical health care costs. It has been shown to reduce crime, as many crimes are a result of desperation. BI would save money in court and detention costs and save people from a life destroyed by crime. If federal and provincial governments worked together to implement BI to replace welfare programs and complement our current social service programs, the cost savings could make the implementation affordable for Canada. If there is anything that this pandemic has taught us, it is that we can all find ourselves, at some time in our lives, needing a helping hand to survive. BI would do that, allowing all Canadians to live with dignity, and isn't that the Socially Just way we want Canada to be? This is an opportunity for us to come out of the pandemic with a program that will create a better life for many Canadians. We ask you to write to your MP to request that the government implement BI. The Calgary Alliance for the Common Good website offers a sample letter, contact info for your MP, and a copy of the letter that the Alliance sent to Prime Minister Trudeau, Deputy Prime Minister Freeland and Minister of Finance Bill Morneau. Go to the CACG website to find out more: https://www.calgarycommongood.org/basic_income. If you would like to discuss Basic Income more please contact Rev. Tracy, Brian Dodd or Karen Kavanagh as we are the all on the CACG Basic Income Team.
